"Kendall only needed a minor tweak to her teeth," Dr. Kevin Sands tells [Us Weekly](#). "She has pretty teeth and Invisalign is a great option. She's a model so Invisalign is perfect for her because she can take them on and off for shoots and it is invisible when she does wear them."

The second youngest daughter of [Kris](#) and Bruce Jenner has been keeping busy since the matriarch of the family announced to [Us](#) [exclusively](#) that she and the former Olympian have separated after 22 years of marriage. Kendall and Kylie, 16, have continued to focus on their clothing line for PacSun, their jewelry line for Nordstrom and a new book. "We have a book coming out," Kylie told the website [Fashionista](#) in August. "We can't really say much about it. Only that it's sci-fi."
